## NORTH AUGUSTA HOUSE 19 CONSTRUCTION UPDATE

As we approach completion, our volunteers continued to work every Saturday and Monday mornings throughout the month. Inside trim is now complete as well as the interior painting. The cabinetry was delivered and installed in place. HVAC has been donated by York and will be installed in October. The trench for the electrical power supply was dug, although rain hindered the completion for the power hook up. The electrical work will be completed in October along with final hardware and flooring.

Support the caring community restaurants who provided lunch for all our volunteers throughout the month:

We also thank Julie Bush for her contribution
